This schedule lists **every** amount QuickServe Cashloan may charge you. If a charge is not on this list, you do not owe it. The exact Namibian Dollar figures for your own loan are in the cost table in clause 2 of your Microloan Agreement — this schedule explains what each charge is and what limits apply to it.

## 1. THE ONE RULE THAT CAPS EVERYTHING

**1.1** Namibian law treats **every amount you owe us that is not the cash we handed you** as a "finance charge". Interest is a finance charge. The service fee is a finance charge. Anything added when a due date is extended is a finance charge.

**1.2** For a short-term microloan repayable within five months, **the total of all finance charges may not exceed 30% of the principal** — the cash actually advanced to you. This is the maximum determined by the Registrar under the Usury Act 73 of 1968 and applied by the Microlending Act 7 of 2018.

**1.3** **The 30% is once-off for the whole loan. It is not 30% per month, not 30% per week, and not 30% again each time a due date is extended.**

**1.4** The service fee is counted **inside** the 30%, never on top of it.

**1.5** If any amount we ever charge exceeds the legal maximum, that excess is void, you do not owe it, and if you have paid it we refund it.

## 2. WHAT WE CHARGE

| # | Charge | How it works | Limit |
|---|---|---|---|
| 2.1 | **Interest** | A flat percentage of the principal, calculated **once** for the whole loan period. It does not compound and it does not grow month by month. | Together with 2.2, never more than 30% of the principal |
| 2.2 | **Service fee** | A single flat amount, charged once at the start of the loan. It covers the cost of assessing and administering your loan. | Together with 2.1, never more than 30% of the principal |
| 2.3 | **Total finance charges (2.1 + 2.2)** | The complete cost of borrowing from us when you repay on time. | **Never more than 30% of the principal** |
| 2.4 | **Charge on an extension of the due date** | Only if you ask for an extension and we both sign an Extension Agreement. It is calculated on the principal still outstanding, at the rate in your agreement. | Only whatever room is left under the 30% ceiling — **which may be nil** |
| 2.5 | **Default interest** | Only if you miss the due date and no extension has been signed. Charged on the amount outstanding, and it stops the day you pay. | **Not more than [DEFAULT INTEREST RATE — NOT MORE THAN 5]% per month, for not more than 3 months in total.** After 3 months, no further default interest at all |
| 2.6 | **Duplicate statement of account** | Your statement is free. This applies only if you ask for a second copy of a statement we have already given you. | **Never more than N$2.00 per page** |
| 2.7 | **Returned or failed debit order** | We recover only the amount the bank actually charges us, shown on your statement with the bank's own reference. We add nothing of our own to it. | Actual bank cost only, itemised, and counted inside the 30% ceiling |
| 2.8 | **Legal and collection costs** | Only if we have to enforce the agreement through an attorney or a court, and only after we have given you the written notices required by clause 8 of your agreement. On the attorney-and-own-client scale. | Only costs actually incurred, **always subject to assessment by the court or the taxing master** |

## 4. WHAT LOANS COST — ILLUSTRATION

These are illustrations at the legal ceiling, using a 30-day loan with interest at 25% of the principal and a service fee. **Your actual figures are in clause 2 of your Microloan Agreement.**

| Cash you receive | Interest (25%) | Service fee | Total finance charges | As % of principal | Total you repay on the due date |
|---|---|---|---|---|---|
| N$500.00 | N$125.00 | N$25.00 | N$150.00 | 30.0% | **N$650.00** |
| N$1,000.00 | N$250.00 | N$50.00 | N$300.00 | 30.0% | **N$1,300.00** |
| N$2,000.00 | N$500.00 | N$100.00 | N$600.00 | 30.0% | **N$2,600.00** |
| N$3,000.00 | N$750.00 | N$150.00 | N$900.00 | 30.0% | **N$3,900.00** |
| N$5,000.00 | N$1,250.00 | N$250.00 | N$1,500.00 | 30.0% | **N$6,500.00** |

**Read the last column.** That is the single figure you must have ready on the due date.

## 5. IF YOU PAY EARLY, YOU PAY LESS

**5.1** The finance charges are reduced in proportion to the days you actually had the money. Using the N$1,000.00 example above, where the full-term finance charges are N$300.00 over 30 days:

| You settle on | Finance charges you pay | Total you pay | You save |
|---|---|---|---|
| Day 5 | N$50.00 | N$1,050.00 | N$250.00 |
| Day 10 | N$100.00 | N$1,100.00 | N$200.00 |
| Day 15 | N$150.00 | N$1,150.00 | N$150.00 |
| Day 20 | N$200.00 | N$1,200.00 | N$100.00 |
| Day 30 (due date) | N$300.00 | N$1,300.00 | — |

## 6. CHANGES TO THIS SCHEDULE

**6.1** We may change this schedule for **future** loans.

**6.2** **The figures in your signed Microloan Agreement do not change.** A change to this schedule can never increase what you owe on a loan you have already signed for. Under clause 16.2 of your agreement, nothing that increases your liability is valid unless it is written down and signed by both of us.

**6.3** The current schedule is displayed at our office and is given to every borrower with every agreement, free of charge.
