SCHEDULE OF FEES AND CHARGES

Payday loans · Given with every Pre-Agreement Statement and Payday Loan Agreement

This schedule lists **every** amount QuickServe Cashloan charges. If a charge is not on this list, you do not owe it. The figures for your own loan are in section 2 of your Pre-Agreement Statement and your Payday Loan Agreement.

1. THE ONLY CHARGE

	Charge	How it works	Limit
A	**Amount lent to you (the principal)**	The cash we pay you.	—
B	**Finance charge**	A fixed percentage of A, charged **once** for the whole loan. It does not grow, compound or repeat.	**Never more than 30% of A**
C	**Total to repay (A + B)**	Paid in **one payment on your next payday** (the due date).	—

1.1 Namibian law caps everything a borrower pays above the cash advanced on a short-term loan at **30% of the principal, once off** — not per month, and not again on an extension. The finance charge is the only amount we add, so it is always within that limit.

1.2 If any amount we ever charged went above the legal maximum, that excess would not be owing, and we would refund anything you had paid over it.

2. PAYING EARLY OR LATE

2.1 **Paying early.** The finance charge is fixed. Paying before the due date does not reduce it.

2.2 **If you do not pay.** If the total is not paid in full on the due date, we will send you a written demand. If it is still unpaid 5 business days after the due date, we will hand your account to a collector or attorney. **We add no late fees or default interest.** Legal costs are payable only if a court orders them.

2.3 **Extensions.** A new due date counts only if it is written and signed by both of us. No new money is paid out, and the total finance charges on the loan can never go above 30% of A.

2.4 **How payments are applied.** Each payment clears the finance charge first and then the amount lent.
